Each player's lowest score for the season or first missed event is automatically dropped, and the lowest current score is indicated with a strikethrough and is disregarded in total point calculation.

Missed events are indicated in [brackets] and are calculated as total average attended score with a cumulative 20% penalty for each event missed, excepting the dropped score. Maximum penalty is 80%.

Bracketed and strikethrough scores may change over the course of the season depending upon the player's future performances. Red names and scores indicate "A" Division, black indicates "B" Division.
